

FOR PROPERTY DEVELOPERS IN NIGERIA

List one estate free for 30 days.

Up to 20 active listings, with photos, video and 360° tours. We set it up with you. Buyers see your name and phone and contact you directly.

20

active listings for one estate
or project

30

days free, counted from the
day we approve you

1

assisted setup session with
our team

No card. No automatic charge.

What your listings show

- ✓ **Photos, video and 360° media** on every listing, so buyers can look around before they travel.
- ✓ **Your name and phone number**, so buyers contact you directly.
- ✓ **Review before going live.** We look at every listing before buyers see it.
- ✓ **The title document, as you state it.** Certificate of Occupancy, Governor's Consent, Deed of Assignment and more.
- ✓ **Enquiries in your inbox.** Buyers can send an enquiry that lands in your Plotmarket inbox.
- ✓ **Yours to manage.** Pause a listing, bring it back, or mark it sold from My Listings.

We are new, and we say so.

You would be one of the first developers on Plotmarket. We would rather set your estate up properly, with you, than promise numbers we cannot show.

How the pilot works

1

Register as a developer.

At plotmarket.ng/register. Your company name and CAC number are required.

2

Request the pilot.

On your Plan page, name the estate, its state and its area. One pilot per company, for one estate.

3

We approve it by hand.

The 30 days start when we approve, not when you register.

4

We set up your listings with you.

Up to 20 active listings, live for buyers to find and contact you.

After 30 days

- Nothing is deleted. Nothing is charged.
- Your 3 earliest published listings stay live on Free Starter.
- The others are paused: hidden from buyers and search, but kept with all their photos and details.
- To bring them all back, Business is ₦35,000 for 30 days and up to 100 active listings. One payment through Paystack. It does not renew automatically.
- Or choose which 3 stay live.

Good to know

- Each listing shows the title document as the seller states it. **Plotmarket does not verify title documents or identity**, and tells buyers to confirm at the state land registry.
- Plotmarket never takes or holds payment for a property. Buyers deal with you directly.
- Pilots are approved by hand, and approval is not automatic.

Ask for your pilot

It takes a few minutes. Tell us the estate and we take it from there.
